

## Announcement

[The German original is valid.]

*To the global public,  
the people of the world,  
To the British House of Lords,  
To the British House of Commons,  
To the (acting) head of the British Royal Household,  
To all other bodies concerned:*

**The suffering of people worldwide has become unbearable, it is immeasurable.**

**Therefore, I hereby publicly  
and solemnly proclaim:**

*As Rex Maximus,*

by the All-one Creator's mercy and will the last King by grace of God entitled to inherit,  
from the royal dynasty of *Ratzeburg*,  
as heir, according to the statutes of inheritance  
of the British Royal House  
and  
of the Prussian Royal House  
as legitimate sole heir to the Sovereign Rights of the  
*King of Prussia*,

We hereby assert Our rightful claim to the British Throne and the Sovereign Rights of the  
*British King and Throne*.

*The New Aurea Bulla of Release* of 07/08/2021 applies.

In 2011, Pope *Ratzinger* tried to change the inheritance statutes of the British Royal House  
by postulating that only members of the Anglican Church had  
a legal claim to the British Throne.

With the certificate of inheritance issued on June 5<sup>th</sup>, 1996, the claim to inheritance already  
existed before Pope *Ratzinger's* advance.

Moreover, with the *New Aurea Bulla of Release*  
the Vatican, as well as all its treaties, etc. etc. etc.  
is officially and legally dissolved (in international law).

The curse that was placed – by wrongs committed – on the British Royal Family, which  
served as a puppet of *the Crown*, which was an instrument of control of the darkest  
powers, who wanted to use it to plunge the earth into the abyss,  
that curse is hereby shattered and dissolved.

*The Crown* is wound up,  
its crimes exposed.

The people and countries of the world who were subject to *the Crown* will regain their full  
freedom and sovereignty.

The *New Aurea Bulla of Release* of 07/ 08/2021 applies.
