

Seventh
LETTER TO THE PEOPLE OF GERMANY AND THE WORLD

Dear people in Germany and all over the world!

To be or not to be, that is the question here and now.
Only through enlightened, true knowledge is CONSCIOUS BEING possible.
Only then is it possible to live a true life through consciousness in reality at all.

That implies your freedom.
F R E E D O M.

Freedom, however, real freedom, is closely connected with the uniqueness of every human being,
the individual: *in-dividuum*, the indivisible in which one may not intervene.

I N – D I – V I – D U – U M .
In this *in-di-vi-du-um* lies:

I N – D I (R) (In you): Heart, Body, Mind & Soul/Spirit
V(W) I (E) – D U (as you): how you yourself love, eat, drink, act
U M (around): the circle around you, the environment with which one surrounds oneself,
the premises by which you live

The collective does not want an individual.

That is what the real battle has been about for many centuries.
Where there is no individual, there is no more freedom.

The logic of no longer being allowed or expected to think of oneself in favour of an imagined collective has now entered its final phase, we see it every day: It is the logic of the collective when, for example, we are supposed to wear masks not for ourselves, but "for the protection of others".

These "others" are in fact the collective, which does not exist.

But it can be used to justify everything: The collective wants this, the collective wants that.

This idea of no longer being able to protect and help oneself and of no longer having a right to exist,
but to rush to the aid of all others, has reached dramatic proportions in Germany.

But that is not how humanity works.

The nature of human beings is their uniqueness and freedom.
Every tree is also unique. This does not mean that he thinks he is better than all the other trees.
But it does mean that he is allowed to grow as it is given and as best suits its circumstances.

To grow means to seize opportunities, to unfold.
Inner growth is an unfolding, a folding inwards. *Ein-falt*.

It can never again be that our children and we are forced to live against their and our own nature and dignity and thus become inwardly crippled.

F r e e d o m .

This is the common denominator that we human beings all over the world can agree on.

You must want freedom!
Shout it to the four winds:
F r e e d o m !

You must demand it loudly now!

It is no longer about "free vaccination decisions" and the like, no, it is about much more. It is about the survival of all of us as human beings, about the existence or non-existence of human beings.

And especially you people in Germany, who see so many around you, who are still so deeply asleep:
Let the wake-up call of freedom ring out!

In every city!
In every square!
In every corner!

F r e e d o m ! ! !

Freedom must go hand in hand with *truth*.

Both freedom and truth are now coming into full effect throughout the world.

I wish you all happy and restful holidays and a
Happy Easter!

I thank all those who dedicate their lives, limbs and energy to the freedom of Germany.

Yours
Stefan Ratzeburg
