

*Eighth*  
LETTER TO THE PEOPLE OF GERMANY AND THE WORLD

Dear people in Germany and in the whole world!

Courage!

Hold on bravely!

Our joyful future is on the horizon!

The *hummingbird* is so fine, and daintily dips its beak into the flower -  
and yet its heartbeat is made of steel.

We all need to combine and unite these opposite qualities within us.  
Then we will become masters like Siegfried, who was supposed to lift the horse and accidentally threw it  
over the roof. That is why, in order to achieve his mastery,  
he had to forge not something powerful and coarse, but a hair-thin net.  
With it, however, one could then also catch evil dragons.

This mastery is achieved when we unite the opposites.

We must now do this in our country, on our Earth.  
We, the people.

We must now *imagine* the wonderful future,  
*create* it in our thoughts.

We are able to do this, and the more of us who do this, the faster this joyful future will come to light,  
emerges.

*At the same time*, however, we must look around us, very concretely,  
and see where our efforts and our help are needed.

We must *also* do the most banal thing.  
We must see the need of others and take action.

Both together, the intense imagination of our glorious free sovereign future.  
*and*

our actions in our immediate environment,  
tie, plait and create this free new joyful world.

What should our world be like?

It shall be a place of joy and peace, of perfect flourishing.  
There will be world peace, and friendship among people, mutual respect.  
The healing of Mother Earth and her inhabitants will proceed swiftly and last.  
Animals will live without torment and will be respected as living beings.  
Our consciousness will tell us that we are eternal, spiritual beings/souls of great experience and memory,  
who live temporarily in earthly bodies and that we are all  
different aspects of the Source of all life,  
all connected to all.

Our elders and ancestors are respected and appreciated.  
Our children teach us to play and stay in exciting and inspiring places,  
where their interests can develop to the fullest, they are guided by wise and intelligent  
people to find out about themselves,  
they explore gardens that are covered or open-air.

Our spiritual development will be accelerated by the possibilities of an  
advanced life-friendly and highly intelligent technology.

We will explore new spaces that are still unimaginable to us, see other worlds and other things.

We will learn the truth about ourselves and our history, and this truth will shake us deeply, heal us and  
make us see clearly.

There will be enough space for everyone, for free development.  
There is abundance, we do things with dedication and enthusiasm,  
for the benefit of the community, which is not opposed to individual interests.

We create win-win-win-win situations.

Art, music and trade serve the peaceful exchange that makes us all rich in a form,  
that we do not know today.

We cherish and care nature and she gives us her gifts in abundance.

Our understanding for others will develop, and everyone will be able to unfold their own  
talents.

There is no longer a social hierarchy among people.

We perceive nature in a much more subtle way, and hear its voice(s):  
Magic everywhere!  
We develop unimagined abilities!  
There will be entirely new professions, and others will become unnecessary.  
We learn quickly, and in a completely new understanding.

The great freedom and truth create truthfulness, joy.  
We will have a lot of fun!

We are still before the realisation of this joyful new world.  
Still the dark figures fight with their last strength to complete the horror.

How do we take this last cliff?

As I have said many times before:  
Germany holds the *Golden Key* with the remaining King of Prussia and his full preserved  
*Sovereign Rights* in its hand.

Again and again voices are being raised that this key, my inheritance rights, should only be properly publicised and that I should just diligently deal properly with all the savage comments.

Those who think like this disregard the fact that the *Great Plan for the Liberation of Earth* never counted on this, to educate and convince the population with *public relations* and other methods of the *Deep State!*

Those who read my channel carefully will suffice.  
All serious questions that have arisen so far on the internet and in the surrounding area, I endeavour, to answer with great care and to discuss them in the letters.

On our joyful new Earth it is no longer about *quantity* and the *collective*, but about the *individual* and the *quality*.

Angels have been sent to you on Earth.  
They have no wings, no flowing robes.  
They stand ready to help you.  
But if you do not see them, they pass you by.  
Opportunities for the future pass you by.  
These angels long-suffer much torment, mockery and hardship.  
But at some point it is enough.  
Then they disappear from your field.  
They are here for the human beings, not for themselves.

Who secretly recognises them?  
– Those with the soft heart,  
those who see the crying need beside them and do not pass by silently.  
Those who perceive a smile and allow it.  
Those who simply act from their heart, without underlying intentions.

I thank from the bottom of my heart all the people who do this.

Yours  
Stefan Ratzeburg
