LETTER TO THE PEOPLE OF GERMANY AND THE WORLD

Dear people in Germany and all over the world!

Many of us go through hard times, when many things break down  
and they are completely challenged.

Many are longing for a sign "from above".

But wouldn't this take us away from our sovereignty again?

I think we are all in a special school right now, it has only one subject,  
one lesson.

This continues until we have fully grasped and learned it:

We are all sitting in a dark room, in the terrible dark.

The room has doors, barely perceptible.

The lesson we need to learn here is sovereignty.

If we take courage and stand up in the dark,  
we will feel the doors.

Which one feels good and right?

*Now we have to do the act of sovereignty*  
and open one of them,

gently, not by force, no one must be harmed in the process.

Silently, as if by magic, we are helped,

we stand in the light and feel the friendship, love and wisdom of others.

We meet like-minded people who are committed to the good future that has already begun,  
with body and soul.

No saviour "from above" shows up there.

Only when we have fully grasped the lesson of sovereignty and have exercised the act of sovereignty  
does the further show itself.

A white dove visits me every day.

There will be peace: everywhere.

A young raven sat here exhausted one evening.

After a night's warmth and shelter, he was lively again and makes progress every day,  
watched by his parents in the skies.

We are not alone, but we have to grow up ourselves,

*we grow our wings.*

What good is a liberated country if the people themselves are not free?

Not everyone has to be and will be able to be free immediately out of themselves.

We are graciously given time.

Those who go ahead in their strength and their concentration on themselves,  
radiate far.

This is the language of truth.

In the information war waged with information weapons - *also* in the alternative media –  
rumours keep coming up: "everything is ready!"

Yes, it is ready, but not in a way that the Deep State has in mind.

For those who come fully into themselves and thus into their power and potential are indeed beings of great-powerful consciousness who have not discarded their ego, but use it like a watchdog to preserve their physical life. They are the sovereigns in their own house.

Such beings - all of us - are naturally connected to each other.

We do not have to know each other by name  
to create this miraculous future together!

Each and every one of us is in her or his place.

Some are the engine, a high consciousness force,  
others have come to help the stranded,  
still others for very specific tasks.

We are connected and allied  
to the wonderful future.

This has already begun.

Now, with our united efforts, it is becoming more and more visible.

We as a people save ourselves in this way,  
elevate ourselves as sovereigns.

This is happening all over the world,  
*parallel to the total collapse of the system.*

And because we, the living sentient human beings, are saving humanity,  
our new sovereign structure is gradually becoming visible.

Only then will the time come for me to address the great public directly.

To put it plainly now:

1.

The outline of silence of all media is still:

Prussia.

The solution, the key is still:

Prussia,

from which I alone bring the highest sovereign rights as the last legitimate King  
of Prussia

and as the last positive public force which does not abuse the power of Prussia.

(Of/Von) Prussia is not a surname, nor is it a label.

Only the name *Ratzeburg* carries the legitimate royal rights.

2.

The great highly intelligent plan to save humanity does not work the way the Deep State would act.

(The Deep State would beat the drum, create big fuss, do perfect public relations,

work with influence and manipulation, launch talk shows

and rely on the "democratic majority", which it would create and

coercion and censorship).

But the great plan to save humanity works the way the good future will work:

Everyone does what they do best.

No one needs to know the plan.

If we follow our true being, everything falls into place by itself, because we,  
in our great, free being in the highest potential, *have a part in this plan,*  
*we communicate with each other on this highest level,*  
even though this may not be clear to our daytime consciousness.

We who want truth and freedom and sovereignty,  
are great beings of the highest potential!

All this that we are creating in this way,  
has a new quality, it's high quality,  
not throwaway junk.  
This is true at all levels, including the political, including the spiritual/mental.  
It is by this signature that one recognises the grand plan:  
By the high-carat, which is equal to the free people.

My task at the moment is  
*to set the course.*

**You, however, are the train that has to start moving.**

At first, this seems disappointingly unspectacular on the outside,  
but this time humanity is to become free for all time.  
Only the sovereignty of all, their freedom and guaranteed individuality -  
under the conditions stated in the *New Aurea Bulla of Release* -  
is the path to true human freedom and world peace.  
the way to world peace,  
which will soon be.

The political does not go bang on the head, otherwise the damage would fall again  
on the population in different countries.

It would be our self-disempowerment if a "saviour" stood there and pulled us all out of misery.

The good and the right comes about quietly and unspectacularly,  
within us and around us.  
All of us must become self-confident and develop our own power.  
Our only way out is sovereignty.

The solution, the key is still:  
Prussia.

How quietly and effectively things turn for the better we see in the East:  
Everything that was politically catastrophic in this great policy of the Deep State,  
quietly turned into the opposite.  
The key is Prussia.

If the Holy Grail were an object, one of the countless seekers would have found it.  
They would have killed each other over it  
and only one would have brought the object home.  
It would not have been the good for all.

When we open ourselves to the 5<sup>th</sup> element,  
in love and humility, coupled with respect and without being guided by self-interest,  
with all living beings at eye level,  
in harmony and thus tactfully  
- because you, the people as a community, set the pace -  
then the "impressions of light" automatically result from that,  
that make all our lives so colourful and joyful.

If we take this to heart and live in this way, we will also gradually become clear and aware,  
that we ourselves are the vessel  
in the form of a body  
which through and with a pure spirit  
as well as a pure soul  
find the holy grail within ourselves.

The inherited rights and duties,  
which are sacred to me,  
enable me to fight for the best  
as guarantor and signatory.

Greetings,  
brave ones!

Yours  
Stefan Ratzeburg
