## DECLARATION

1.

As a consequence of the regicide on 13. March 1871 of my direct ancestor in the agnate line,  
Karl Friedrich Ratzeburg, born on 20. March 1828 in Berlin,  
I am the last legitimate crown prince of Prussia  
and thus as the last descendant  
the last King of Prussia entitled to inherit,  
as well as the administrator of the German *Kollateral*  
as it exists in accordance with the status of 1871 within the area  
of the German Empire (*Deutsches Reich*) in the boundaries of 1871.

2.

From 1919 onwards the ancient nobility was forced to abdicate worldwide  
and paid off by settlements.  
As a consequence it became the higher nobility, the nobility,  
was denobled or worse.  
Along with this went the loss of the dynasty name/family name *Ratzeburg*.  
Worldwide all members of the original royal dynasties  
lost their dynasty name/family name in their respective equivalents  
to the name *Ratzeburg*.

3.

By turning from ancient nobility to higher nobility  
and thus losing their dynasty name/family name  
the royal houses also lost  
their authority to sign the old treaties/contracts and thus also lost  
access to the latter as well as the resulting political  
capacity to act.  
For this reason no one among them  
can refer to the old treaties/contracts.

4.

Due to the course of history it is only in my direct line that all bases remained  
given the agnatian succession and the primogeniture,  
as my line has never abdicated and has never been paid off.

5.

Prussia (*Preußen*) is still existent today and  
now also has the capacity to act.

6.

In view of the state of facts explained above  
access to the *Goldene Bulle of 1356* has been activated.

7.

The laws solemnly proclaimed by the *NEW AUREA BULLA OF RELEASE*  
are made to release humanity worldwide  
to freedom, sovereignty, self-responsibility, peace  
and to the observance of the general cosmic laws of the Creator.  
Those who oppose the laws of the *NEW AUREA BULLA OF RELEASE*  
or act in contradiction to them  
shall receive their just and proper punishment worldwide,  
as the highest legislative power has now been exercised.

## O P E N I N G

Where are we now and here? Who *are* we?  
And as who or what are we seen and treated here?

The agnate inheritance and the primogeniture, the right of first birth in the heirship, determine me to have remained as the last member of the ancient nobility.

The position of constraint the people find themselves in and the high degree of deprivation of rights and human enslavement that has already been reached, as well as the special opportunity resulting for me as the last heir of the ancient nobility determine me now to open and release this my so far unused potential, conferred to me by the mercy and the will of the Creator, for the benefit of all people and to use it for the rescue of all people with a manifold spirit.

The Little Prince owes the latter to his grandmothers Klara and Martha in his childhood between Berlin and Lüdenscheid, and much more to many others.

In November 2009 my research started, and with the acquired knowledge I grew *through* myself and *in* myself, while it was only during recent months that the essential knowledge, up until nearly inconspicuous, but extremely important details, was gained by me. Gradually I became aware that there is only *one* good way out of our global misery.

The Creator gave me a position in the woven texture of the world which I now gratefully accept in the intention to serve all mankind. In this function and not in any way to elevate myself above humans I use the "We", the *Pluralis Majestatis*, which I pronounce to indicate that the disfranchised people whose humanity was intended to be taken away totally by means of malicious treaties/contracts shall in me receive a voice raised for their liberation and, possessing the sovereignty, to declare and to accomplish this liberation as the Governor and Representative (*Verweser*) of the Creator on Earth, through His mercy and by His will.

With the highest authority I represent in my person the seven pillars of power which were represented in the *Goldene Bulle of 1356* by the seven Electors (*Kurfürsten*).

Those seven Electors were led into Unity,  
the Unity of the sevenfold Spirit,  
the brightly shining Creator Force  
penetrating and vitalising everything.

Full of strength and confidence for a new beginning,  
in accordance and harmony with all peoples and tribes,  
in the law of nations  
I as the Patron now solemnly and joyfully step onto this path  
that has been announced for a long time in old writings and books,  
led by the Creator and my lionheart.

Maybe the bond between Heaven and Earth comes into existence right *now*,  
and may it be treasured and cared for by the German peoples and tribes,  
as it is their vested responsibility.

The ways of the Creator are fathomless.
