Diarchs of Godland decree on Baltic sea Indigenous Runes / World Indigenous Runes

21.6.(1)2017

BASED IN OUR DIVINE RIGHTS TO LOVINGLY RULE THE GLOBAL DIARCHY OF INDIGENOUS GODLAND AND IN THE DECLARATION OF THE RIGHTS OF INDIGENOUS PEOPLES FR. 13.09.(1)2007

At the peak of fertility blossom of this summer solstice we gather together to secure the future of our divine people of the Baltic Sea region, Europe, our World and the Universe. We raise the cups full of fresh spring water most powered by the forces of life at this time of the year. We celebrate the source of all and we rest in our fertile mother nature, in the fertility of the sons and daughters of all races. We welcome a new era of patient and generous times. We are all one in these sacred Viking lands, for the best and in the well of all creation, for peace and eternal love.

Diarchs of Godland oxa replaces New World Order's debt-slavery

In order to address the weapon of mass destruction - debt - which has been fully and irresponsibly developed by the shadow figures of New World Order that privatize all nation states into corporations globally imposing systemic digitalized genocide,

We, based in our divine rights established by the Gods, declared in the Decree of Godlanders Indigenous Rights and also as ensconced in the Declaration on the Rights of Indigenous Peoples,

And for the purpose of security and fertility of all Indigenous Nations,

We, the Diarchs of Godland, do hereby create and establish a new unit of exchange for human existence, which we name- oxa (gift economy money that can't be employed as debt or usury) - that is the amount of unit time linked human-existence-means-creation emitted by a human being for his- or her-self regularly.

The quantity amount of human oxa is linked to and based upon a respectful existence minimum of the community goods and is decided by local Indigenous chiefs and courts, but managed by a local government that is contracted by each member of the indigenous nation.

Baltic Indigenous Bank stores Baltic sea Indigenous Runes (BIR) and World Indigenous Runes (WIR)

Any oxa issuing union has to be registered with Baltic Indigenous Bank of Godland . The original oxa units - Baltic Indigenous Runes (BIR)- have been emitted by Ditta of Godland and accounted in the books of Baltic Indigenous Bank of Godland by konna of Indigenous Peoples of Baltic Sea and the world, as it has been practiced in Europe (UK, Swiss, Austria etc) for thousands of years using Tally Sticks. For global community investments a quadrillion BIR has been emitted, but You have to create Your local oxa union for basic rationing with Your own WIR first.

1 BIR/WIR = 1 Euro. BIR = Baltic sea Indigenous Runes. WIR = World Indigenous Runes.

The commodity of BIR/WIR is the fertile seed of indigenous peoples and their highly valuable spiritual power, the rights of Indigenous Peoples to their lands that covers the area of Mother Earth and compensations to them for 999 years of genocide and democide.

Tally Stick as well as any other sound means of **recognizable oxa** issuance documentation as **local coupons** can be applied. The oxa document contains following information – the oxa issuers seal or signature and contact details that identify the issuer as a living man or woman. The amount of oxa, the date it is created and the parts involved in the transaction. The tally stick is accompanied with the transaction document that specifies the detail.

Oxa for right to Indigenous Decentralisation of deadly corporations

Anonymous **debt money grid**, issued by few organized feudal war mafias with hidden owners of Federal Reserve Bank in US and all central banks of Bank of International Settlements in Switzerland, **has to be carefully sourced out through a loving and friendly process** of these corporate conglomerates into indigenous reliable units.

All the 9 countries of Baltic sea region, and 134 more countries, 13-9-(1)2007 ratified the Declaration on the Rights of Indigenous Peoples where Article 20. p. 1. states

Indigenous peoples have the right to maintain and develop their political, economic and social systems or institutions, to be secure in the enjoyment of their own means of subsistence and development, and to engage freely in all their traditional and other economic activities.

Diarchs of Godland criminalised mega fraud of enslavement through UPIK.de and DNB.com

Diarchs of Godland have criminalised and nulified all lawfull grounds for the genocidal spider net of corporate religious, banking, military, pretence governmental and other fraudfull units registered in private mega fraud of enslavement through UPIK.de and DNB.com .

Generally BIR/WIR is basic to get out of the digital and automated systems that have gotten out of control of indigenous management as they have been stolen from the states by private stock exchange syndicates and are managed now by military-bankster mafias to leave the people resourceless and killed.

Any digital money has to be attached to local oxa to be legitimate in indigenous Godland.

Oxa Godland-income to escape the genocidal grid

Anybody, even people involved in the genocidal systems – either as a victim or a perpetrator, can **claim protection of Godland and receive Godland-income** to escape the genocidal grid of the corporate labor market. You have to make a commitment in a form of loyalty contract to Indigenous people of the region where You live and **demand Your government to get Your tax payments to be sent to indigenous Godland of Your state.**
